Education

Gargi Memorial Institute of Technology

June 2023 - July 2026

B.Tech in Computer Science and Engineering., GPA: 8.18

Relevant Coursework: Object Oriented Programming (OOPS).

JLD College of Engineering and Management

June 2020 - Aug 2022

Diploma in Computer Science and Technology, GPA: 8.6

Technical Skills

Programming Languages: Java, JavaScript (ES6+).

Front-End: HTML5, CSS3, Tailwind CSS, JavaScript (ES6+) React.js, Next.js.

Back-End: Node.js, Express.js.

Database: MongoDB, Mongoose.

Tools: Git Version Control, GitHub, VS Code, Slack.

Deployment: Vercel, Netlify, Render.

Soft Skills: Continuous Learning, Technological Adaptability, Self-Discipline, Collaboration, Problem Solving.

Experience

Uphead Management Consulting

Remote

Product Implementation Trainee

Feb 2026 - May 2026

- Designed and Developed scalable React.js solutions for live business platforms, delivering fast and user-centric web experiences.
- Built dynamic administrative dashboards with API-driven data visualization, filtering, and state management.
- Enhanced frontend efficiency through component optimization, rendering improvements, and seamless backend connectivity.
- Created cross-browser compatible interfaces using Tailwind CSS and modern web development standards.
- Implemented REST APIs while resolving data-mapping, filtering, and synchronization challenges.
- Fixed critical layout, functionality, and responsiveness issues, improving platform reliability and usability.
- Conducted comprehensive testing, debugging, and issue tracking to ensure stable product releases.
- Gathered client requirements through direct communication and translated business needs into actionable technical implementations.
- Successfully contributed **15+ production-ready pull requests** across multiple client projects using Git and GitHub workflows.

Projects

- **AI-Powered Resume Builder** (ongoing project) | MongoDB, Express.js, React.js, Node.js, Tailwind CSS Google Gemini AI. GitHub Link: [AI-Powered Resume-Builder](#)

*Developed an AI-powered MERN application for automated resume generation and optimization using Google Gemini AI.

*Implemented secure authentication, resume management, real-time editing, and shareable resume links.

*Integrated AI-driven content generation and image processing features to enhance resume quality.

- **Medicare Smart Health Care Platform** | MongoDB, Express.js, React.js, Node.js, Tailwind CSS

GitHub Link: [Medicare Smart Health Care Platform](#)

A full-stack healthcare management platform connecting patients, doctors, and administrators with AI assistance, video consultation, and online healthcare services.

*Patient Portal: Authentication, doctor/lab booking, symptom-based search, prescriptions, payments, ratings, and video consultations.

*Doctor Portal: Appointment management, profile updates, prescription uploads, and AI-powered assistance.

*Admin Panel: Doctor, appointment, lab test, ward/bed, and prescription management with chatbot support.

*Integrated email notifications, secure authentication, online payments, file uploads, and real-time video calling.

- **Personal Portfolio Website** | MongoDB, Express.js, React.js, Node.js, Tailwind CSS

Live Demo: [Portfolio Website](#)

*Developed a full-stack portfolio platform using MongoDB, Express.js, React.js, Node.js, Tailwind CSS.

*Implemented advanced UI features including animations, glassmorphism design, dark/light mode, and custom interactions.

*Built a responsive, cross-browser compatible interface optimized for performance and accessibility.
