Professional Summary

Full-Stack Developer with hands-on experience in developing responsive web applications using React.js, Node.js, Express.js, MongoDB, JavaScript, and Java. Skilled in implementing scalable backend solutions, and translating business requirements into production-ready applications. Proficient in Git/GitHub workflows with a strong foundation in object-oriented programming (OOP) and modern web development practices.

Education

Gargi Memorial Institute of Technology

B.Tech in Computer Science and Engineering., GPA: 8.18

Relevant Coursework: Object Oriented Programming (OOP).

Kolkata, West Bengal

June 2023 - July 2026

JLD College of Engineering and Management

Diploma in Computer Science and Technology, GPA: 8.6

Kolkata, West Bengal

June 2020 - Aug 2022

Technical Skills

Programming Languages: Java, JavaScript (ES6+).

Front-End: HTML5, CSS3, Tailwind CSS, React.js.

Back-End: Node.js, Express.js.

Database: MongoDB, Mongoose.

Tools: Git Version Control, GitHub, VS Code, Slack.

Deployment: Vercel, Netlify, Render.

Soft Skills: Continuous Learning, Technological Adaptability, Self-Discipline, Collaboration, Problem Solving.

Experience

Uphead Management Consulting

Remote

Product Implementation Trainee

Feb 2026 - May 2026

- Designed and developed scalable **React.js** applications with responsive user interfaces, **RESTful API** integration, data visualization, filtering, and **state management** for **production business platforms**, delivering high-quality, **production-ready features**.
- Optimized **reusable React components** and resolved **40+ UI, functionality, and responsive design issues** across multiple production modules, improving **application performance**, maintainability, and **user experience**.
- Conducted **end-to-end manual testing** across **6 client projects**, identified defects, prepared detailed **bug reports**, and collaborated with developers to validate fixes, ensuring **stable production releases**.
- Prepared comprehensive **technical documentation, user manuals, video manuals, and implementation guides** for **3 ERP projects**, supporting smooth deployment, **user onboarding**, and **knowledge transfer**.
- Delivered on-site **ERP training sessions** and **product demonstrations** for clients across **3 ERP projects**, providing **end-user training**, troubleshooting, and **implementation support** to ensure successful **software adoption**.
- Contributed **15+ production-ready pull requests** across multiple client projects using **Git** and **GitHub** workflows.

Projects

AI-Powered Resume Builder (ongoing project) | **MongoDB, Express.js, React.js, Node.js, Tailwind CSS, Google Gemini AI**. GitHub Link: [AI-powered Resume Builder](#)

- Engineered an **AI-powered MERN application** for automated **resume generation** and optimization using **Google Gemini AI**.
- Designed and Built **13 professional ATS-friendly resume templates**, including a template inspired by the **Harvard resume format**, with **real-time preview** and customization.
- Integrated secure **JWT authentication, resume management, AI-powered content generation, image processing, and shareable resume links**.

Medicare Smart Health Care Platform | **MongoDB, Express.js, React.js, Node.js, Tailwind CSS**

GitHub Link: [Medicare Smart Health Care Platform](#)

- Developed a **full-stack healthcare platform** with dedicated **Patient, Doctor, and Admin portals** using the **MERN stack**.
- Integrated **secure authentication, appointment booking, AI-powered symptom search, online payments, email notifications, file uploads, and real-time video consultations**.
- Built comprehensive dashboards for managing doctors, **appointments, laboratory tests, prescriptions, wards, and patient records** with **role-based access control (RBAC)**.

Personal Portfolio Website | **MongoDB, Express.js, React.js, Node.js, Tailwind CSS**

Live Demo: [My Portfolio](#)

- Developed a **full-stack portfolio platform** using **MongoDB, Express.js, React.js, Node.js, Tailwind CSS**.
- Implemented advanced UI features including **animations, glassmorphism design, dark/light mode, and custom interactions**.
- Built a responsive, **cross-browser compatible** interface optimized for **performance and accessibility**.
